

# Package ‘JSconsole’

October 15, 2020

**Type** Package

**Title** A 'RStudio' Addin to Send 'JavaScript' Code to the 'V8' Console

**Version** 0.1.0

**Author** Stéphane Laurent

**Maintainer** Stéphane Laurent <laurent\_step@outlook.fr>

**Description** Provides a 'RStudio' addin to send some 'JavaScript' code to the 'V8' console. The user can send an entire 'JavaScript' file or only some selected lines. This is useful to test the code.

**License** GPL-3

**Encoding** UTF-8

**LazyData** true

**Imports** V8, rstudioapi

**URL** <https://github.com/stla/JSconsole>

**BugReports** <https://github.com/stla/JSconsole/issues>

**RoxygenNote** 7.1.1

**NeedsCompilation** no

**Repository** CRAN

**Date/Publication** 2020-10-15 13:30:06 UTC

---

**Description**

This package provides a RStudio addin to send some JavaScript code in the V8 console. To run the addin, open a JavaScript file, select some lines if you want to send only this piece of code, and select JScconsole from the Addins menu within RStudio.
